

Profoto D4 GENERATORS

SYSTEMATICALLY SHAPE WITH LIGHT

Modular light shaping tools are the heart of the Profoto System design. They allow you to reveal your own artistic style with unparalleled quality of light with maximum control and the minimum equipment set up time. You can systematically work with dozens of tools and accessories to create the look you want. The impressive range of Profoto light shaping tools include a system of reflectors, spotlights and umbrellas, but it doesn't stop there. Highly specialized accessories like the ProGlobe, ProBox and Profoto 5ft., 7ft. and 8ft. giant reflectors offer unique lighting solutions to any shooting situation. Each tool offers a specific character of light to create highlights and shadows in limitless combinations, a broad palette that is easy to work with. For the lighting artist in you.
